## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 10/776,899, filed on February 11, 2004.

### ***Drawings***

2. The drawings are objected to because many labels are handwritten. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

3. Claims 11-20 & 42 are objected to because of the following informalities:

With respect to claims 11 & 42, the term "n" should be explicitly described as to what it represents.

With respect to claims 12-20, commas should be disposed as necessary after "C1" and "C2" to allow for ease in reading the claims.

Appropriate correction is required.

***Allowable Subject Matter***

4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record (US 6,617,572 B2 to Ishizuka, US 5,539,519 to Takagi et al, and US 6,635,863 B1 to Nihommori et al) does not disclose nor disclose the aperture location as a function of the focal length and the pitch length in the equation claimed. As a result, claims 11-44 are allowable pending resolution of issues above.

***Conclusion***

6. This application is in condition for allowance except for the following formal matters:

Objections to the claims and figures are described above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
